SUNSHADE

Maintains process accuracy by shielding instrumentation from solar heat gain

Four sizes - SUNSHADE provides protection for single or multiple instruments, preventing instrument calibration drift due to temperature changes caused by solar radiation.

Mechanical protection - SUNSHADE will shield instruments from the sun and provide partial protection from falling objects, rain, snow, and wind blown sand.

UV and corrosion resistant - The blended ABS material has excellent UV and corrosion resistance.

Easy access to instruments - SUNSHADE mounts to a standard 2” pipe stand and can be removed easily for full instrument access.

E4 SUNSHADE

The E4 SUNSHADE features a design that is stackable to minimize shipping costs, lightweight, impact resistant, and UV resistant.
Select the SUNSHADE size required: E1B, E2B, E3B, or E4B.

Select the SADDLEPAK support required, refer to SADDLEPAK brochure for complete details.
